

November 11, 2021

Dear Parents/Guardians,

Our Genesis Parent Portal has the ability for parents to **voluntarily report** full COVID vaccination status for their children. The Rumson School District does not hold a position on vaccination of individuals for COVID as we believe this is a parental prerogative.

Please see the directions below if you choose to report the vaccination status for your child. **This is not required.** If you choose to do so, providing this information will help us identify those who need to quarantine when exposed as vaccinated individuals do not need to quarantine when exposed.

*Students age 5 and older are currently vaccine eligible. Clicking the fully vaccinated toggle indicates your child is two weeks past all vaccination doses.*

Directions:

1. Log into the Genesis Parent Portal.
2. On your child's summary screen you will see a new COVID 19 vaccine reporting option under their profile picture:

3. Click the "Toggle" button to indicate that your child is fully vaccinated. Doing so changes the icon from the red X to a green check.

Dr. John E. Bormann  
Superintendent
