

Help Us Pave The Way in building our children's brightest futures... this time, outside.

The Rumson Education Foundation is thrilled to create an **Outdoor Classroom** on the grounds of Forrestdale. Designed with input from faculty and staff, the space will include a covered pavilion and seating, nestled between the greenhouse and the growing apple orchard. This facility will enrich science and STEM agriculture programs, and will be available for all classes from Deane Porter and Forrestdale.

Covid put a stop to our traditional fundraising events in 2020 and 2021, including the Kitchen Tour and the Celebration for Education. However, the pandemic did not stop our commitment to innovation in our district. The **Outdoor Classroom** is a timely way to raise the capital that will fund REF grants, while beautifying our school property and maximizing its use for our students and teachers.

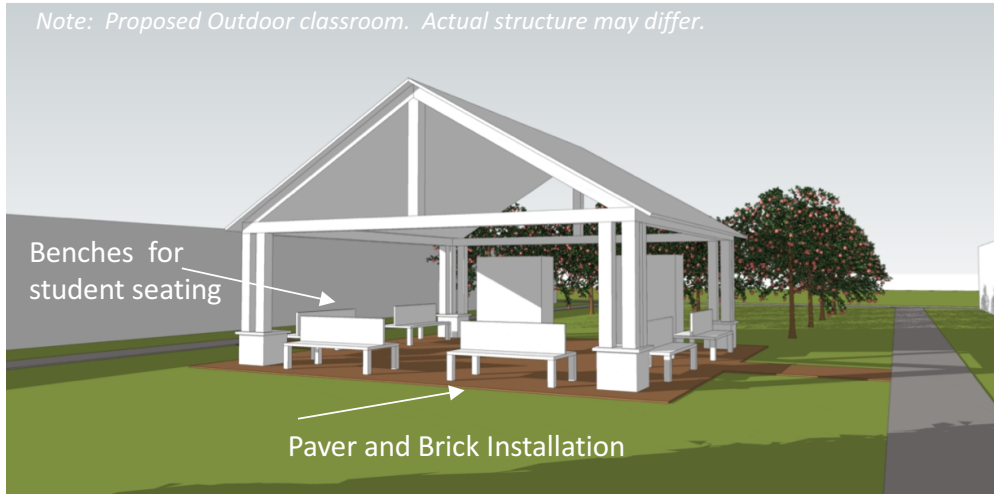

Help the REF build this Outdoor Classroom, and fund future grants, through the tax-deductible purchase of personalized, engraved bricks (\$500) pavers (\$1,000) or benches (\$3,500).

Since its inception in 1995 the REF has funded approximately **\$2.75M** in grants. Established as a means to close the gap between what our district budget can cover, and the needs of our students, teachers, and administrators, the REF is committed to fostering an environment of excellence in our schools.
