

### 5350 STUDENT SUICIDE PREVENTION

The Board of Education recognizes that depression and self-destruction are problems of increasing severity among students. Students under severe stress cannot benefit fully from the educational program and may pose a threat to themselves or others.

The Board directs all school district staff members to be alert to a student who exhibits warning signs of self-destruction or who threatens or attempts suicide. Any such warning signs or the report of such warning signs from another student or staff member shall be taken with the utmost seriousness and reported immediately to the Principal or designee.

The Principal or designee shall immediately contact the parent(s) of the student exhibiting warning signs of suicide to inform the parent(s) the student will be referred to the Child Study Team or a Suicide Intervention Team, appointed by the Superintendent or designee, for a preliminary assessment. Upon completion of the preliminary assessment, the Principal or designee shall meet with the parent(s) to review the assessment. Based on the preliminary assessment, the parent(s) may be required to obtain medical or psychiatric services for the student. In the event the parent(s) objects to the recommendation or indicates an unwillingness to cooperate in the best interests of the student, the Principal or designee will contact the New Jersey Department of Children and Families, Division of Child Protection and Permanency to request intervention on the student's behalf.

In the event the student is required to obtain medical or psychiatric services, the parent(s) will be required to submit to the Superintendent a written medical clearance from a licensed medical professional, selected by the parent(s) and approved by the Superintendent, indicating the student has received medical services, does not present a risk to themselves or others, and is cleared to return to school. The written medical clearance may be reviewed by a Board of Education healthcare professional before the student is permitted to return to school. The parent(s) shall be required to authorize their healthcare professional(s) to release relevant medical information to the school district's healthcare professional, if requested.

In accordance with N.J.A.C. 6A:14-1.1(d), special education and related services shall be provided to students with disabilities at public expense, with no charge to the parents. A clearance by a psychiatrist or other medical professional as a requirement to return to school is considered an assessment provided at public expense. The district shall not require the parents to incur the cost of psychiatric clearance.

In accordance with the provisions of N.J.S.A. 18A:6-111 and 18A:6-112, as part of the required professional development for teachers as outlined in N.J.A.C. 6A:9C-3 et seq., every teaching staff member must complete at least two hours of instruction in suicide prevention, to be provided by a licensed health care professional with training and experience in mental health issues, in each professional development period. The instruction in suicide prevention shall include information on the relationship between the risk of suicide and incidents of harassment, intimidation, and bullying and information on reducing the risk of suicide in students who are members of communities identified as having members at high risk of suicide.

Not including teaching staff members subject to the requirements of N.J.S.A. 18A:6-112.a. and not including licensed mental health care professionals, a school employee or an employee of a contracted service provider who has regular and direct contact with students, as determined by the Board, shall complete a one-time training program in suicide prevention, awareness, and response identified by the New Jersey Department of Education (NJDOE) pursuant to N.J.S.A. 18A:6-112.c. A person subject to the requirements of N.J.S.A. 18A:6-112.b. shall complete the required training program not less than twelve months from the date of the identification by the NJDOE of training programs or twelve months from the person's date of hire, whichever occurs later.

Not less than twelve months following the date of the identification by the NJDOE of the training programs or not less than twelve months from the person's date of hire, and annually thereafter, the district shall provide to their employees who are subject to the requirements of N.J.S.A. 18A:6-112.a. or b., in a hard copy paper form or in an electronic form, guidelines on the district's reporting and suicide prevention, awareness, and response protocols including, but not limited to, contact information for each school's designated staff who should be notified whenever an employee believes a student may be at risk for suicide.

Each person who is required pursuant to N.J.S.A. 18A:6-112.a. or b. to complete a suicide prevention training program shall have a duty to warn and protect when the following conditions exist:

1. A student has communicated to that person a clearly identifiable threat of imminent, serious physical violence against oneself and the circumstances are such that a reasonable person would believe the student intended to carry out the threat; or
2. The circumstances are such that a reasonable person would believe the student intended to carry out an act of imminent, serious physical violence against oneself.

A person acting in good faith and who takes reasonable steps to discharge a duty to warn and protect shall be immune from civil and criminal liability in regard to that disclosure.

Any school district staff member, volunteer, or intern with reasonable cause to suspect or believe that a student has attempted or completed suicide, shall immediately report the information to the Principal or designee or their immediate supervisor who will immediately report it to the Superintendent or designee. The Superintendent or designee shall promptly report it online to the New Jersey Department of Children and Families, or as otherwise required by the Department of Children and Families in accordance with N.J.S.A. 30:9A-24. In accordance with N.J.S.A. 30:9A-24.i., any person who reports an attempted or completed suicide shall have immunity from any civil or criminal liability on account of the report, unless the person has acted in bad faith or with malicious purpose.

The Superintendent shall prepare and disseminate guidelines to assist school district staff members in recognizing the warning signs of a student who may be contemplating suicide, to respond to a threat or attempted suicide, and to prevent contagion when a student commits suicide.
