

TUITION FEES

Special education students from other school districts may attend the schools of our district with the approval of the superintendent provided that:

1. Placement has been approved by the sending board.
2. There is room for them without undue crowding.
3. Tuition is paid by the sending district.

Tuition charges will be based upon the actual costs per pupil and ratios in accordance with N.J.A.C. 6:20-3.4 for the prior school year to operate that class as determined by the secretary of the board.

Any employee may have his/her child/children (natural, adopted or step child) attend the Rumson School District for tuition. Said employee will be charged a tuition fee as fixed annually by the board to reflect fifty percent (50%) of the actual per pupil costs for the prior school year.

This policy is subject to annual review by the board of education. Notification of continuance and the next year's tuition cost will be made by May 15th of each year.
