

BASIC PROGRAM

A basic educational program, sequentially developed and emphasizing the fundamental skills, will be provided to attain the district goals.

Individual needs of all students will be considered in developing the curriculum at each grade level. A basic body of skills, knowledge, understanding and attitudes will be the goal of the curriculum.

This educational philosophy will provide students with the opportunity to develop intellectual curiosity, critical thinking, problem-solving abilities, and aesthetic appreciation in the school years in such a manner that they will be used throughout a lifetime.
