

STUDENT FEES

Students voluntarily participating in special offerings and events that are scheduled outside the normal school day and which are not related to the school's classroom teaching program will be asked to pay toward the cost of transportation and admittance fees. This policy will apply to special concerts, plays, and performances held off-site.

Funds will be made available for students who are unable to pay. The system of collecting payments from paying children and an accounting for those unable to pay will protect the anonymity of the children utilizing this fund.
